3   Activation 30-day Demo version

When you first start the software, a hint with an installation number is displayed.
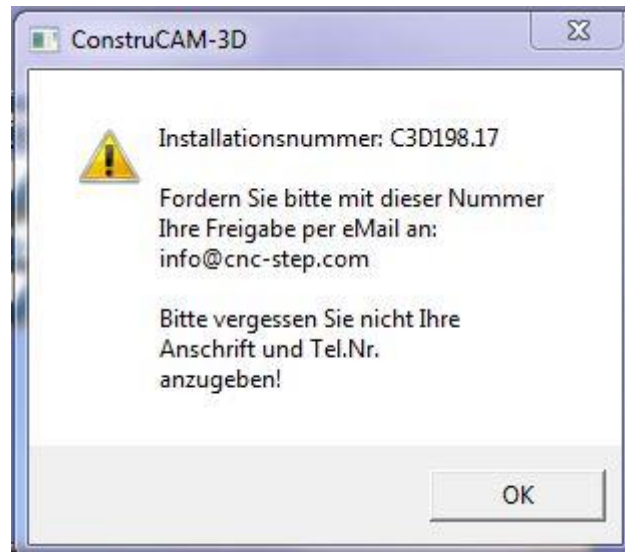

Please send this number with your contact details to our e-mail address:

info@cnc-step.com

We will send you the appropriate ***unlock code*** via email.

Open ConstruCam3D and enter the activation code obtained in the following window:

The software is then unlocked for 30 days and can be adequately tested by you.
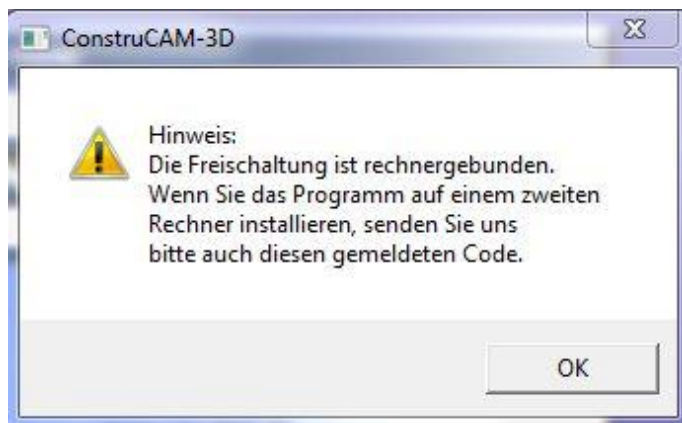

You will be notified that the registration code is only valid for one computer.

The duration of the demo version is displayed after.

The permitted duration of use can later be called up in the menu under **_Tools / info_**.

4   Activation full version (paid version)

If you purchased the software as a full version, we will send you the necessary customer-specific activation code via email.
The handling is the same for both versions Eco and pro!

The *license file "CtlStrDat.dll"* is attached as a compressed .rar file in the email.
Unzip the file and copy it to the install directory of ConstruCam3D.

You must overwrite the existing old file!

Tip: If you do not have a program to open the attached .rar file, you can download WinRAR for free here**: http://www.winrar.de/downld.php**

After starting the software, you must now enter *the user code* received from us.

This is done under the menu item *Tools / Help / User Code*:
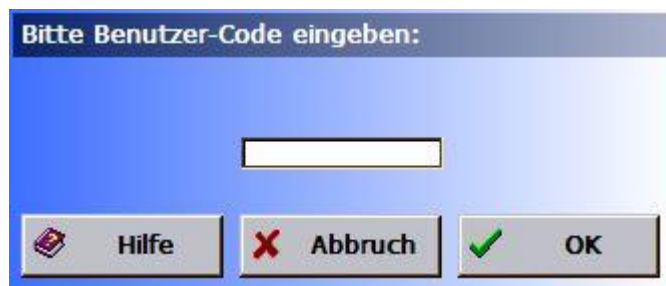

After entering the user code, the software must be restarted.
In the menu *Tools / Info* the user code is now confirmed:

5   Licence Agreement

We point out that the software, as well as the activation code and user code may not be disclosed to third parties or reproduced in any way.

They may not be published in any way outside our own websites.

Violators will be prosecuted.
